Stewardship and Sustainability

Michigan State is doing our part to address the global climate crisis within our own community and on our own campus. Working toward the goal of achieving climate neutrality by 2050, we will continue making sustainability a critical part of campus culture as we work to maximize our impact while minimizing our footprint.

Recycling containers can be found in all campus buildings. Special recycling bins will be available outside of every prop storage location for teams to recycle, as appropriate. Please participate and encourage your teams to recycle and Be Spartan Green.

All items for the landfill must be taken to dumpsters outdoors (trash chutes in halls have been closed).
